WILL SHOW PICTURES OF SONOMA COUNTY

The productiveness of Sonoma county will be heralded throughout the state of Iowa in word and picture during the next couple of months, Prof. J. E. Williamson, principal of the Analy High School of Sebastopol will be the lecturer.

Professor Williamson has been invited to speak at a number of institutes held in the state of Iowa, and is taking a fine stereopticon along with him and a hundred views descriptive of Sonoma county and its adjacent territory. He expects to exhibit the pictures on a number of occasions, and in this way will do some fine promotion work for Sonoma county

THE OSCULATION EDITOR

It seems apparent that the editor of the Janesville, Wis., Record is destined to achieve fame as an authority on osculation. He has taken up the cudgels for kissing, (as if that sacred rite needed anyone to champion it) saying:

"California reports all kinds of schemes to boom her lemon industry, the last that comes to our notice appropriates the confectionary, or in plain United States, take the cake.'

"An edict has been issued," continues the only expert on osculatory ethics, "by some quasi-scientific authority who ought to be in a better business, that a kiss should always be followed by the sucking of a lemon, supposedly for tbh purpose of preventing an interchange of microbes that might lead to very shocking results. We know nothing of the sanitary properties of the California kiss," (here let us remark that the gentleman will immediately receive the profound sympathy of al the California editors who read this) "but we do know," (aha, so he has had some experience?) "speaking from personal experience of others," (oh, shucks. not competient testimony) "that whoever kisses one of the Wisconsin girls does not want anything to take the taste out of his mouth.

"No he will carry that delicious taste as long as possible, microbes or no microbes.

"Try something else dear Golden State, to boost up yonr lemon trade. We will eat freely of your lemons during hot weather but neither immediately before or after kisses, if you please.

"Go to grass with your scientific theories that would counteract the sweetness of a kiss! We will take our kisses straight, using the lemon to get their work on a bilious stomach, or to hand to a political opponent."

(This is referred to the Horticultural Society to determine whether it's a libel on California lemons or Wisconsin kisses).

WHO GOT IT

According to the World's Work a New York family man bought a dozen "strictly fresh" eggs for 50 cents. The date of the purchase was February, 1912. When the eggs were used pencil marks were discovered on one of them, which upon closer examination proved to be a message from the person who owned the hen that laid the egg. The message read to the effect that the egg in question was laid Dec. 1, 1811; that the habitat or the hen that laid it was down in Tennessee, and that when it was first put upon the market its "dozen price" was 17 cents. The orignal owner of the egg expressed a desire that owners in transit and transfer to ultimate consumption should affix their endorsement and that the ultimate consumer would inform him of the date of purchase, the price paid and so on. There were not so many endorsements on tha egg, but sufficient to show that it had been through several hands, including one of the big storage companies and that a total toll of 33 cents a dozen had been paid as the cost of distribution.

The Sacramento Board of Health has decided that a cornstarch pie is not a lemon pie. That is all righ enough, but what a hungering public really desires to know is, What is a tamale?

WHAT TEDDY THINKS

I'm twice as great as Washington,
I'm twice as great as Grant,
Because third terms they didn't ge
They needn't think I can't.
I'm twice as great as Jefferson
And Madison combined,
I'm twice as great as all the lot
Of Presidents, I find.
I'm greater than my country
And it's customs and its laws,
Its poor old Constitution,
And its precedental flaws.
I'm twice as great as any man
Above or 'neath the sod—
In fact I'm half inclined to think
I'm twice as great as God.
—Healdsburg Scimitar.

THE NEW YEAR BOOK

The Year Book of the Department of Agriculture, 1911 Edition, has just been issued. In accordance with the law, an allotment of several hundred have been made to each Congressman for distribution among is constituents. Congressman Kent has requested us to notify our readers that he will distribute his allotment in the order the requests are receved, as long as the supply lasts.

The "Year Book," as it is popularly known, is issued annually by the Department of Agriculture. It contains a number of special articles upon a wide range of subjects but each closely relates to or describing some line of work of the Department of Agriculture. The book is of particular value to those following agricultural pursuits.

BRING RESTRAINING SUIT

The Board of Supervisors on Saturday, in response to requests, instructed District Attorney Lea to bring suit against the Russian River Land Company to restrain if possible the company from selling lots on a piece of land at Riondo, which the company had previously designated as a park and with such provision has sold many lots. The lot owners are said to desire the retention of the park site and do not want their view and comfort interferred with by the selling of sites thereon for other houses.

The matter will be a very inieresting one and will attract much attention when it come up for a hearing

TWO PROMISING YOUNGSTERS

Says the Breeder and Sportsman: "Joe Ryan, of Sonoma, is bringing several very promising trotters and pacers from that pretty town to the Santa Rosa race track, where he will give them their final preparation for the races this fall. He has a three-year-old pacing filly by Washington McKinney 2:17½, out of Annie Rooney 2:17, by Stathway 2:19, and a three-year-old trotter by Washington McKinney 2.17¼, out Hulda 2:08½, one of the gamest and best gaited daughters of Guy Wilkes 2:15¼. These belong to Rudolph Spreckels, who also owns Rooney Dillon, a pacer by Sidney Dillon out of Annie Rooney 2:17. This mare was out of Jewel by Oakland Boy.

SUIT TO QUIET TITLE

A suit in which there are about one hundred defendants, was commenced in the Superior Court on Saturday. Mrs. Rachel Snyder, a well-known and pioneer woman of this section, is the plaintiff and she is suing the Mayor and Common Council and scores of other defendants to quiet title to a piche of land in Sonoma. The complaint is a voluminous document and is printed in book form.

The prune market appears to be a puzzle, buyers are in the field almost constantly, but the growers seem willing to take chances on the market, and it is stated that very few sales are being made. If the hot does cut the crop short in any material measure market couditions will probably be further complicated when it is learned that Sonoma county's crop will be short.

Napa county has filed a petition at Sacramento asking that a vote be taken in November on the question of the abolishment of the poll tax.

HURRYING WORK ON R. R.

Work on the extention of the Northwestern Pacific northward from Willits is being rushed as rapidly as possible this summer. Already fifty-eight miles have been completed and within a short time, probably by the first of July, trains which are now only running to Longvale, thirteen miles from Willits, will be run through to the terminal, fifty-eight miles from that place.

At the same time work has progressed rapidly from the north end south and it is possible that about the same time the train service will be extended from the old terminal over a new section of the road, bringing the two ends much nearer together han at present and making it possile to complete the through trip from Eureka to San Francisco or vice versa, in twenty-six hours.

American farmers have much to lern, if they ever decide that it is desirable to do it, with regard to intensive cultivation. United States Consul Robert Frazier, Jr., of Valencia, Spain, has written to the State Department to the effect that in the Providence of Valencia families subsist on the produce of four-tenths of an acre of land and that as many as 160 families live on 100 acres. The cultivation is by hand, little machinery being used, and the land is officially valued at an average of $656 an acre. Rainfall being insufficient, irrigation is necessary, but the production is enormous, amounting to more than 1,000,000 metric tons of oranges, olives, grapes and other crops.

FRIDAY, JUNE 14, 1912

The voters of Supervisor Green's district are evidently thinking people from the evidence shown by the results of the Local Option election in that territory. They absolutely refuse to be burdened with the results of the liquor traffic. They say, "let the incorporated towns have the saloons, we do not want them." So say we, all of us.

LA FOLLETTE SUPPORTERS

It is proposed to organize at once a California branch of the LaFollette National League, therefore, every loyal LaFollette progressive is requested to send name and address to the LaFollette Headquarters, 204 First National Bank Building, San Francisco.

During the past eleven years the trusts have ruled the land, and the cost of living has constantly increased. The people should fight for a change. Enlist under the leadership of Senator LaFollette; he understands our problems and can be trusted to make the people's fight. Support him now and then go on to victory with him. If he fails to get the nomination in June, 1912, we must make sure of his election in 1916. Do not delay. Join him.

For further information see Geo. M. Hardman, Expositor Office.

J. M. ALLISON FOR SUPERVISOR

J. M Allison of Glen Ellen was in Santa Rosa Tuesday and while there announced that he was a candidate for the office of Supervisor in the First District. He will be a candidate for the Democratic nomination at the fall primaries. Mr. Allison is one of the substantial farmers of the Glen Ellen section and has many friends in the Sonoma Valley, who will assist him in his ambition.

MONTGOMERY WILL BE THE PRINCIPAL

Former County Superintendent of schools De Witt Montgomery has accepted the position as principal of the Santa Rosa High School, tendered him by the Board of Education on the resignation of Principal Charles L. Searcy recently.

Mr Montgomery is a graduate of Stanford University of the class of 1901, and took his A. M. degree a year later. Besides other educational work he was principal of the Gridley High school and the Sonoma Valley High school before before being elected county superintendent, which position he filled very successfully for four years. The acceptance of Mr. Montgomery of the proffered position brings a strong addition to the high school faculty.

GRAVENSTEIN APPLE SHOW

SEBASTOPOL TO HOLD ANNUAL FAIR

The directors of the Gravenstein Apple Show to be held in Sebastopol some time in the fall, are busy making preparations for the same.

Cash prizes will be given for the best exhibits. The first prize will be $100; for the second $50 and for the third $25. Each of the first five entrants of feature exhibits by corporatins will be given $50 bonus.

For packers' entries the awards will be gold medal, silver medal, diploma and blue ribbon.

The premium list includes prizes for juveniles, premiums for horticultural and agricultural exhibits from one farm, best display of corn, grain, potatoes, fruit packed or in glass gars, vegetables, pumpkins, berries, grapes, gams, cherries, cut flowers, etc. The premium list is much larger than it has ever been for previous fairs.

DECENCY VICTORIOUS

DRYS WIN IN SUPERVISOR GREEN'S DISTRICT BY LARGE MAJORITY

The local option election in Supervisor Lyman Green's district Tuesday resulted in a big victory for the "drys." The "dry" majority was 418. Only one precinct in the district went "wet," and that was Graton by 17. Hessel precinct was a tie vote, 68 to 68.

Before election day it was pretty generally conceded that the supervisoral district would vote for "no license" and by a safe majority. Within the next ninety days the will of the people as expressed at the polls will become effective, and the dozen or so bars in the territory in the district outside of the incorporated towns of Sebastopol and Petaluma, including several roadhouses, will go out of business. The vote by precincts was as follows:

Precinct	Dry	Wet
Wilson	137	50
Two Rock	113	48
Marin	73	59
Magnolia	173	82
Pleasant Hill	83	33
Blucher	109	99
Molino	154	110
Bloomfield	130	96
Hessel	68	68
Graton	119	136
Forestville	155	115
Totals	1314	896

PROBATION COMMITTEE MET

The Probation Committee of the Juvenile Court of Sonoma County met on Monday afternoon at the Court House and discussed many matters of importance, relative to the work of that organization, which is seeking to protect young boys and girls from falling into ways not conductive to their welfare. The Committee has in contemplation some aggressive work.

The report of County Probation Officer J. P. Plover was received and a number of letters from former delinquents were read, indicating that the good lessons given them while in the detention home have proved beneficial. The secretary, Mrs. Henry G. Hahmann, was at the desk, and President Charles C. Belden presided.

The members of the Probation Committee present, were President C. C. Belden, Mrs. Robert Potter Hill, Mrs. Charles F. Rohrer, Mrs. H. G. Hahmann, Charles D. Barnett and Herbert Slater.

WOMAN'S CLUB NOTES

Interest in Club work in now focusing on two events—the National Biennial which meets in San Francisco the last of this month and then the "Grand California Festival at Sonoma," coming September 6, 7, 8 and 7. All club women are urged to attend as many sessions of the Biennial as possible.

For the festival, the following Chairmen of Departments have been appointed: Art and Relics Loan, Mrs. Emparan; Floral Exhibit, Mrs. Wicker; American Supper, Mrs. Hunter; German Lunch, Mrs. Stolen; Spanish and Italian Lunch, Mrs. H. Bates and Mrs. Gottenberg; Information Bureau and Catalogues, Mrs. Stearns; Music and Sacred Concert, Mrs. Bateman; Grand Ball, Mrs. Hunter; Ice Cream, Mrs Wagnon; Printing and Advertising, Central Committee.

At the last Club meeting Mrs. Burlingame gave a most interesting report of the State Federation meeting in Paso Robles. Club Women are everywhere interesting themselves more and more in the practical, everyday problems, and in all political questions that affect women and children and the life in the home.

On next Friday, Social Day, Mrs. Wagnon will present the subject, "Manuel Training in the Schools."

AN ELABORATE PAGEANT

A Unmarkable Nine-day Festival to be Held at Santa Cruz

Perhaps the most extensive and elaborate water pageant and carnival ever attempted on the Pacific Coast has been planned by Mr. Fred Swanson, for the summer resort city of Santa Cruz, commencing Saturday July 20, and ending in a blaze of fireworks on Sunday, July 28. Every since the casino at Santa Cruz closed last fall, Swanson has been at work on his idea, with the result that all arrangements have been completed for a truly remarkable nine-day festival, at the popular watering place.

Among the hundred features which have been prepared in order that the water pageant may go down in the history as a remarkable success, are the following: A yacht regatta to which all of the yacht clubs of the Pacific Coast have been invited and which will be held under the auspices of the Corinthian Yatch Club of San Francisco; a series of motor boat races on the San Lorenzo River, along which reviewing stations garnered with flowers and flags are now in process of construction; parades of decorated floats, corresponding to those used in New Orleans at Mardi Gras time; shell and small boat races; swimming contests and nightly displays of fireworks and flambeaus.

The presence, during the festivities, of several of the finest and largest vessels in the Pacific Squadron, has been assured. In addition, there will be the usual opportunities for unsurpassed surf bathing; dancing every evening in the Casino; side-trips to the Big Trees and through the wonderful canyon connecting Santa Cruz with the Big Basin County, and other features.

The large and beautiful Hotel Casa del Rey, recently completed at a tremendous amount of money and energy, is arranging to take care of part of the immense crowd which promises to assemble at Santa Cruz during the nine days of the water pageant. The management of the big hostelry has assured the public that there will be no advance over their regular rates, which are usually moderate considering the fact that every room in the building is an outside room and is flooded with daily sunshine. The Casa de Rey will accept advanced reservations from this date until the opening of the carnival. In addition to the accommodations offered by by this Hotel, the Tent City at Santa Cruz is now in full bloom and there are many other, though smaller hotels and boarding houses which afford comfortable lodging for a vast host.

The Southern Pacific Company, which maintains a fast and superior service betwen San Francisco, Los Angeles and tributary points of Santa Cruz, is arranging to make especially low rates to the Surf City and return, for the period commencing July 20th and ending July 28th.

SAFETY EQUIPMENTS OF S. P. STEAMERS

In response to many requests for information regarding the life-saving equipments on Southern Pacific liners plying between New Orleans and New York, which are often used by travelers from California over the Sunset Route, the Passenger Department has issued the following statement:

"The Southern Pacific Steamships are now, and always have been equipped with a sufficient number of lifeboats to carry every passenger and member of the crew to safety in case of accident, which, by the way, is extremely unlikely, owing to the intimate knowledge of the route possessed by all officers employed. Each ship is equipped with wireless and is in touch with shore stations during the entire voyage."

"In addition, notices are posted in all state-rooms, public rooms and steerage, showing the assignment of occupants to specific boats, and the boats are all plainly and conspicuously numbered so that no mistake could be made. Fire and boat drills are held the first day out and at every port of call. The passengers are cordially invited to participate in these drills. Stewards always instruct passengers how to adjust the individual life belt and how to move through the water if necessary."

These rules are not new, but have been in operation on the Southern Pacific boats for several years.

SONOMA WINS AGAIN

SONOMA 3; PATTEN LAND CO. 2; --11 INNINGS

Followers of the National pastime witnessed another exhilarating contest at the local ball grounds Sunday afternoon when the home club defeated the Patten Land Co. nine, of San Francisco, in eleven innings by a score of 3 to 2.

It has been a long time since the Sonoma fans have seen such a game on the local diamond. Not for many a moon have they been treated to such a pitcher's duel as that furnished by Jansen of Sonoma, and Davis for the visiting team. Jansen struck out 21 men, while the opposing twirler fanned 11 of the home bunch.

From the beginning they pitched and twirled and smoked 'em over and then some. If you were not there, kick yourself.

The Sonoma boys were scheduled to play the St. Joseph's Soladity nine of Fruitvale. But at the last moment the last Patten Land Co was substitutee.

The Patten Lands are the fastest bunch the locals have played this season. Their catcher, Bill Sousa, is a dandy--the best receiver we have ever seen on our local diamond. They have been beating them all.

However, Jansen had them eating out of his hand when they wanted to hit in the pinches. Sousa was their only steady hitter. In the tenth this player tried to break up "our old ball game." He almost did it, too.

Bill took up his swat stick and waited for a good one. Jansen gave him a fast, steady ball right over the soup plate and—

There was a crash. The ball took a course midway between center and left field. It looked like a home run drive and good night for the Greens.

With the crack of the bat center fielder was off As the base runner neared second base there was a roar from the stand. The fans were not yelling for Sousa's home run; they were applauding Ty Cobb Evans, who made the most sensational running catch ever seen in Sonoma.

The third and winning run was scored on a hit by Maffei, a sacrifice, a passed ball and a drive through the second baseman's territory by La Torres.

The score was:

	R	H	E
Sonoma	3	6	4
Patten Lands	2	4	5

Batteries: Sonoma—Jansen and Volquardsen. Patten Lands—Davis and Souza.

Umpires—Boynton and Bateman.

SURREY WHEEL BROKE DOWN

Mine Host L. Bloom, of the Flora Villa, at El Verano, with a number of guests, came over from that place on Monday for an outing. The party traveled in three single rigs and a surrey. While the surrey was on Fourth Street one of the rear wheels crumbled and went to pieces. The team was gentle and no runaway resulted.—Republican

RUPTURE EXPERT HERE

SEELEY, WHO FITTED CZAR OF RUSSIA, CALLED TO SANTA ROSA

F. H. Seeley, of Chicago and Philadelphia, the noted truss expert, will be at the Overton Hotel and will remain in Santa Rosa Wednesday and Thursday, June 19th and 20th. Mr. Seeley says: "The Spermatic Shield Truss has now used and approved by the United States Government, will not only retain any case of rupture perfectly, affording immediate and complete relief, but closes the opening in ten days on the average case. This instrument received the only award in England and in Spain, producing results without surgery, harmful injections, treatments or prescriptions. Mr Seeley has documents from the United States Government, Washington, D. C., for inspection. At charity cases without charge, or if any interested call he will be glad to show the truss without charge or fit them if desired. Any one ruptured should remember the date and take advantage of this opportunity.

DEATH CALLS NEWTON V. V. SMYTH

Former County Surveyor Passes Away Suddenly

The people of Sonoma County were profoundly shocked Thursday morning to hear of the death of one of her most honored citizens, former County Surveyor, Newton V. V. Smyth.

Mr. Smyth was taken ill just a week ago Thursday while surveying at Agua Caliente, and was taken home suffering from pneumonia.

His condition was critical from the start, but he appeared to be improving Wednesday evening, but Thursday morning just before 5 o'clock his heart suddenly stopped.

Mr. Smyth was a member of the B. P. O. Elks, F. & M. Masons, I. O. O. F. and W. O. W. He served two terms as County Surveyor and two terms as City Engineer at Sebastopl, and was City Engineer of this city at the time of his death.

He was one of the most honored and sought after men in the county, his services being eagerly sought everywhere, and at the time of his death had several large contracts.

The funeral will be held Saturday at 1:30 from the family residence in Santa Rosa. Interment will be in Rural Cemetery.

CONVENT EXERCISES A SUCCESS

The closing exercises of the Presentation Convent School were held in Union Hall Tuesday evening. The Hall was filled to overflowing with friends and relatives of the graduates.

Every number on the program was well rendered.

After the presentation of the diplomas Rev. Father Commerford made a most excellent address.

The evening's entertainment was concluded with a social dance, which continued until an early hour. Music for the dancing was furnished by Mrs. Pauli.

Glen Ellen Notes

Mr. Dan Frideger, of Eldridge, spent Monday in Santa Rosa.

Mrs. C. C. Weise spent the forepart of the week in San Francisco.

Mrs. R. P. Hill was a passenger south bound from Eldridge Tuesday.

Dr. Anna McBain, of the State Institution, was a visitor at the county seat Saturday.

Mr. F. Quien and family have moved to Napa, where Mr. Quein has purchased a ranch.

The El Verano base ball club defeated the Glen Ellen team Sunday at Boyes Springs by the score of 9 to 4.

Jim Pieratt is busy marketing his cherry crop at his home in Nun Canyon. Mr. Pieratt reports a splendid crop.

The opening of the Hotel Chauvet at Glen Ellen last Saturday evening was a great success. There was a splendid crowd, many Sonomaites being among the guests, and the ball lasted until morning. The music was splendid.

The place to buy is the place where you get the best treatment. You will have no kick if you buy your groceries at HARDMAN'S.

Mr. and Mrs. Vernor Griffith arrived here the forepart of the week from Miami, Arizona, and are visiting at the home of Mr. and Mrs. A. E. Gaige, the parents of Mrs. Griffith. Mr. Griffith departed for a visit with his parents at Geyserville Tuesday.

Last Monday evening a goodly number of people from the surrounding valley gathered at Mervyn Hall to witness the moving pictures. The pictures were splendid, and reflects much credit upon the managers of this popular show. Messrs. Collins & Mohr, who endeavor to show the best and most up-to date reels of moving pictures.

SEVEN YEARS FOR ROESE

SENTENCED BY JUDGE SEAWELL MONDAY

Monday Superior Judge Emmet Seawell passed sentence on W. F. Roese, the burglar caught in El Verano by Deputy Sheriff Jos. Ryan.

The man will go to San Quentin for seven years.

This is the second time he has served a term in the State's prison.

Schellville Chicken Colony Notes

Mr. Huff entertained a friend from the city between trains Sunday.

Miss Elinor Haines is visiting in Oakland for a week among friends and relatives.

Mrs. Haines is taking care of her daughter's baby from Oakland, the daughter being quite ill.

Some of our colony men are getting work "helping out" in some of the surrounding hay fields.

Mrs. Chas. DeArmand came up Monday evening, and they are getting nicely settled in the Dr. Nourse house.

Mr. DeArmand is having the grass and weeds cut along the streets, adding greatly to the looks and comfort of the colony.

The Dottarar family's house hold goods are expected to arrive today to occupy their newly completed dwelling of five rooms

Preparations are being rapidly made for the beginning of our new school house immediately, which we are so glad to see and know.

Emmett Seward is still hatching ducks—having a small incubator lot come off every ten days. He has several hundred of various sizes and all looking well.

Mrs. Nourse went to the city Sunday and will join the Dr. there, where he has rented a flat, and they will go to housekeeping as soon as their goods arrive.

We are visited nearly every day by some of the numerous agents for "poultry remedies" also an occasional nursery agent puts in an appearance—all working for a livelihood one way or another.

NATURE'S ESSENCE.

Extracted From Forest Plants.

Nature's laws are perfect if we obey them, but disease follows disobedience. Go straight to nature for the cure, to the forest; there are mysteries here that we can fathom for you. Take the bark of the black-cherry tree, the root of mandrake, stone root, queen's root, bloodroot and golden seal root, make a scientific, non-alcoholic extract of them with just the right proportions and you have Dr. Pierce's Golden Medical Discovery.

It took Dr. Pierce, with the assistance of two learned chemists, eight years of hard work experimenting to make this vegetable extract and alterative of the greatest efficiency.

Just the sort of remedy you need to make rich, red blood, and cure that lassitude and feeling of nerve exhaustion. Dr. Pierce's Golden Medical Discovery bears the stamp of PUBLIC APPROVAL and has sold more largely in the past forty years than any other blood purifier and stomach tonic. The refreshing influence of this extract is like Nature's influence—the blood is purified and enriched—the vital fires of the body burn brighter and their increased activity consumes the tissue rubbish which has accumulated in the system. Doctor R. V. Pierce, the founder of the Invalids' Hotel and Surgical Institute, Buffalo, N.Y., and a physician of large experience and practice, was the first to make up an *alterative extract* of native medicinal roots, WITHOUT A PARTICLE OF ALCOHOL, which purifies the blood and tones up the stomach and the entire system in Nature's own way. The "Golden Medical Discovery" is just the tissue builder and tonic you require when recovering from a hard cold, grip, pneumonia, or from a debilitating fever. No matter how strong the constitution the stomach is apt to get "out of kilter" now and then, and in consequence the blood is disordered, for the stomach is the laboratory for the constant manufacture of blood. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body, and so cures liver and kidney troubles. If you take this NATURAL BLOOD PURIFIER AND NERVE TONIC you will assist your system in manufacturing each day a pint of rich, arterial blood, that is invigorating to the brain and nerves. The weak, nervous, run-down, debilitated condition which over-worked people experience is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin—you feel "blue." Dr. Pierce's Golden Medical Discovery *cures* all blood humors as well as being a tonic that makes one vigorous, strong and forceful. Dr. Pierce's Golden Medical Discovery STANDS ALONE as the one medicine for stomach, liver and blood disorders that has the ingredients printed upon the wrapper of every bottle leaving the great laboratory at Buffalo, N. Y., which *cures* in Nature's own way; not only does it STAND ALONE in respect to its ingredients being known, but also as the only tonic and restorative which absolutely contains *no alcohol*.

"I was taken with a severe cough, weakness in my back, a 'glimmer' over the eyes, had a bad breath, and stomach was out of order," writes H Gaddis, of 1423 South Tanna Avenue, Tacoma, Wash. "I felt sluggish, did not care for anything, had no life, it was almost misery to move, appetite very poor. I read Dr. Pierce's Common Sense Medical Adviser and went right away and purchased two bottles of his 'Golden Medical Discovery,' and before I had taken all of one bottle I felt better. If any doubt the truth of this testimonial they may write to me."

Pierce's Pleasant Pellets cure bad, foul stomach and constipation and so help to cure nearly every disease of mankind. They regulate, tone up and invigorate Stomach, Liver and Bowels.

A DIAGNOSIS

By WILLIAM G. ERNST

In a mining camp in Colorado called Jimdandy, there being no doctor, the people lived in a state of anxiety. When any one got sick those about the patient did not know what to do in the premises, and there was no one on whom to throw the responsibility. A committee was sent over to Hufton, where there were two doctors, with orders to try to persuade one of them to practice in Jimdandy.

Dr. Farmecute was induced to take a new field, especially as Dr. Thorax, the other practitioner, bothered him by disputing his diagnosis and treatment in every case. If Farmecute said a man had typhoid fever Thorax declared he had the mumps. If Farmecute gave a sedative Thorax sneered and said that he needed a stimulant. Therefore Dr. Farmecute accepted the new field with the proviso that if his diagnosis or treatment were questioned by any one and he shot the objector he was not to be prosecuted. The committee accepted the condition, and the doctor hung out his shingle in Jimdandy.

There had been but half a dozen cases of illness in the town in a year, though they had been worrying ones to those who took care of the patients. The hanging out of a doctor's sign seemed to have a peculiar effect on the inhabitants. While it had not occurred to them before that there was anything the matter with them, now every person who passed the doctor's office and read his sign felt compelled to consult him. But woe betide any one who ventured to disagree with him as to the disease from which the patient suffered or the treatment. One morning Tim Hickson was passing the doctor's office when Jim Ferguson came crashing through the door, forwarded by the toe of the doctor's boot.

"What's up, Jim?" asked Hickson.

"Why, I consulted the doctor for a sore throat, and he told me the trouble was in the stomach. I said I could eat well enough if I could get anything down, but I couldn't swallow, whereupon he hustled me out."

"Served you right," said Hickson. "The doctor came here with the stipulation that he was not to be disputed professionally."

"If that's so how am I to get even with him?"

"Well, if you want to get revenge you'd better tackle him on some other subject. If you insist on throat trouble when he says your stomach's wrong and he shoots you he's not to be punished."

Ferguson passed on, rubbing his bruises and trying to think of a way to get even with the doctor. It was evident that in a professional way Farmecute had the people of Jimdandy with him. In any fracas in that line they would favor him, and the result would be to the discredit of his patient. Ferguson brooded over his treatment, but his throat got well of itself.

One day he went back to the doctor's office—this time he had his gun with him—and said:

"Doctor, I'm sick. I reckon I'm going to die."

"Where does the trouble lie?"

"Oh, I don't know. I'm no diagnoser. That's for you to find out."

"I didn't mean that I want you to tell me what's the matter with you. I want to know your symptoms."

"I haven't any symptoms."

"Then you haven't any disease."

"Yes, I have."

The doctor had turned away, and when he saw the patient again Ferguson was looking at him from behind the muzzle of a revolver. His own gun was in a drawer in his medicine case, but there was no opportunity to get it if Ferguson objected.

"I've got a frightful disease, and I want you to tell me what it is."

"How can I tell you without knowing your symptoms?"

"I told you my symptoms the last time I called on you professionally, and you fired me out for my pains."

"Well, I can't do anything for you."

Ferguson cocked his weapon. "If you don't diagnose my case before I count five," he said, "I'll make a case for an undertaker. One, two"—

"You are suffering from amnesia."

"What's that?"

"You're forgetting yourself."

"Three"—

"Let me see your tongue."

Ferguson put out his tongue.

"I must feel your pulse."

"Not much. You'll have to find out what's the matter with me in some other way."

"You will need a sedative. Excuse me a moment and I'll give you a hypodermic to quiet you."

A little syringe was lying on a table with other instruments. The doctor picked it up, filled it with a liquid and, advancing boldly toward his patient, suddenly raised it and squirted the contents in Ferguson's eyes. Jim dropped his revolver and clapped his hands to his eyes.

Tim Hickson happened to be passing the doctor's office again and saw Jim Ferguson coming out exactly the same way as before. Jim fell on his knees and, rising, groped about wildly.

"What's up, Jim?"

"Been seeing the doctor again. We've settled it. The trouble's in the eyes. I've gone blind."

Ferguson's sight soon came back to him, but he concluded to let the doctor alone.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

BREVITIES

A special report devoted chiefly to the enforcement of the more important labor laws—child labor, woman's 8-hour law, payment of wage, pay check and employment agency.—by State Labor Commissioner McLaughlin, for the six months ending Dec. 31, 1912, is off the press. Mclaughlin asserts that after inspection of 3000 establishments he is convinced that California leads all states in percentage of children kept in school and out of the factory and store. The commissioner finds that most employers of women have increased the number of female employees since the 8-hour law was passed.

Early vegetables and fruit from southern markets are both scarcer and higher priced than usual on the northern markets this year as a direct result of the flooding of thousands of acres of the fertile river bottom lands in the southern states bordering the Mississippi. However, the fellows who were not swamped with high water are reaping a rich harvest.

For three years Tasmania has been holding egg-laying competitions under government supervision, the third of which terminated in May of this year. In the last competition the average cost of feeding each bird was $1.54 and the average value of the eggs per bird was $3.59, the average price per dozen being 25 cents. The profit per bird of the winning pen was $4. In the first competition the winning pen of six birds—White Leghorns—laid 1,248 eggs, and in the second competion first place went to a pen of Black Orpingtons, whice laid 1,318 eggs.

Mrs. M. A. McLaughlin, 512 Jay St., LaCross, Wis., writes that she suffered all kinds of pains in her back and hips on account of kidney trouble and rheumatism. "I got some of Foley's Kidney Pills and after taking them for a few days there was a wonderful change in my case, for the pain entirely left my back and hips and I am thankful there is such a medicine as Foley Kidney Pills." Sold by James McElney, Model Pharmacy.

County Clerk William W. Felt Jr. has planned to have new bulletin boards place at the ends of the court for posting notices in accordance to court orders. The front will be covered with a glass door, the legal papers will be in a box-like enclosure. In this manner they will be protected from wind and rain, and can be left for great lengths of time in their places.

Helped to Keep Down Expenses

Mrs. J. E. Henry, Akron, Mich., tells how she did so: "I was bothered with my kidneys and had to go nearly double. I tried a sample of Foley Kidney Pills and they did me so much good that I bought a bottle, and feel that they saved me a big doctor bill. Sold by James McElney.

Out of a maze of records at Sacramento and Washington, the California conservation commission appointed by Governor Johnson slightly more than a year ago has made the astounding discovery that the state owns 1,175,064 acres of school lands it did not know it possessed. It had been supposed that the entire vast grant made to the state had passed out of the hands of the people, but now there will be added to the state's wealth by the commissioner's discovery of several million dollars of land values.

They Put an End To It

Charles Sable, 30 Cook St., Rochester, N. Y., says: "He recommends Foley's Kidney Pills at every opportunity because they gave him prompt relief from a bad case of kidney trouble that had bothered him. Such a recommendation, coming from Mr. Sable, is direct and convincing evidence of the great curative qualities of Foley's Kidney Pills. Sold by James McElney, Model Pharmacy.

The people of Marin county feel proud of the fact that their county can boast of having the lowest tax rate of any county in California and is free from debt. And this low tax rate exists with the flattering fact that here is ample money in the county treasury to meet all demands of the county.

A Card

This is to certify that Foley's Honey and Tar Compound does not contain any opiates, any forming drugs, or any ingrediants that could possibly harm its users. On the contrary, its great healing and soothing qualities make it a real remedy for coughs, colds and irritations of the throat, chest and lungs. The genuine is in a yellow package. Ask for Foley's Honey and Tar Compound and accept no substitutes. Sold by James McElney, Model Pharmacy.

A BISMARCK STORY.

It Shows the Gentler Side of the Man of Blood and Iron.

The French surgeon Czerniecke in his reminiscences of the Franco-Prussian war tells a story that seems to place Bismarck in a new and more gentle light. He says:

"Seated on some straw and propped up against a pillar of the church of Rezonville was one of our poor soldiers, a quite young man named Rossignol. A shell, striking him like the lash of a whip, had carried away both his eyes and the bridge of his nose, leaving the front of the skull bare. This fearful wound was covered with a dressing. He lay there calm, silent and motionless, in quiet resignation.

"Bismarck stopped in front of him and asked me what was his case. He seemed really touched. 'There is war for you, messieurs, the senators and deputies!' Then, turning to one of his suit, he said, 'Please bring me some wine and a glass.' He filled the glass to the brim, took a sip, and then, gently tapping the shoulder of the poor martyr, he said, 'My friend, will you not drink something?' Rousing himself from the deathlike stupor that was creeping over him, the man assented.

"We then saw Bismarck stoop and very softly and slowly give the wounded soldier the wine. Rising again, he drank what was left in the glass and said, 'What is your name, my boy, and where do you come from?' 'Rossignol, from Brittany.' The count then took his hand and said, 'I am Bismarck, my comrade, and I am very proud to have drunk out of the same glass as a brave man like you,' and, stretching his hand over the horribly mutilated head, he seemed to give him a mute benediction."

ANIMAL SWIMMERS.

Best of All, Though Not the Swiftest, Is the Polar Bear.

The rhinoceros and hippopotamus are wonderful swimmers and divers, while the Indian elephant crosses great rivers with heavy loads. The elk and the reindeer are first class swimmers. The elk keeps his head above water and crosses directly from bank to bank to avoid turning. The reindeer, on the other hand, turns as often as he likes, keeping his head only a little above the surface.

But of all swimmers of all climes the best, though not the swiftest, is the polar bear, who passes half his time in the water swimming and diving. His swimming power is nothing short of miraculous if it be remembered that the water in the regions he frequents is invariably cold and that cold is normally prohibitive to good swimming. There are bears that can swim from forty to fifty kilometers without great effort.

One of the swiftest swimming animals is the squirrel. A sportsman on one occasion, having at hand a squirrel born in captivity which had never seen water, wanted to see if it could swim and took it with him in a rowboat to the center of a lake. The squirrel turned toward the bank, head and paws above the water, back and tail underneath it, and began to swim so rapidly that the man recovered it when it neared the shallow water near the land. It is said that even many nonaquatic birds will swim like ducks if an attempt be made to drown them.—Harper's.

Colors and Light.

White has the greatest property of reflecting light of any color and black the least. While white receives the color it immediately sends it away again in the form of reflected light. Black absorbs light. Lay a white and a black piece of cloth on the snow and that under the white cloth will remain as it is, while under the black one it will melt. This suggests a reason as to why white garments are coolest for summer wear. They do not absorb the heat and light from the sun, but reflect it off. In winter the dark absorbs the light and accomplishes more what one wants, so dark clothing is the common thing for winter use. If you want a cool house in summer paint it white.—New York World.

Terrible Temptation.

"Of course," said the man who was looking out of the window at the heavy rain, "I don't believe George Washington was capable of telling a lie. But I don't consider that cherry tree incident much of a test."

"Could you devise a better one?"

"Yes. I'd like to know what Washington would have said if he had stood at the door of a restaurant on a stormy night and the waiter had hurried up to him with a fine new silk umbrella with an ivory handle and no name on it and said, 'Isn't this yours, sir?'"—Washington Star.

Home Melodrama.

"The cards are marked!" said the man.

The woman cowered.

"The cards are marked!" he repeated.

There was no tragedy however. Seems the baby had got hold of a lead pencil and marked up the euchre deck.—Washington Herald.

A Weather Prophet.

"Now, Mrs. Brown, I have pinned up your new almanac."

"Oh, thank 'ee, miss, thank 'ee, but my corns tell me the weather far better than any of they 'ere almanacks!"—London Opinion.

What is declared by the ranchers to be an ancient aborigine town has been uncovered by the Colorado river, which for a week has been on a rampage for 100 miles north and south of the Needles. The high water makes an examination impossible, but it is said, that the walls of the huts undoubtedly are centuaries old. The site of the ancient village is thirty miles fouth of Needles.
